

BEYOND CRAYONS & COMPUTERS GRANT GUIDELINES

Beyond Crayons and Computers Grants, up to **\$1,000**, awarded through the Merrill Area Community Foundation are designed to enhance and reward innovative teaching, learning, and special motivational activities in **Merrill area schools – public and private, grades pre-K through 12th grade**.

We are looking for **innovative** and **creative** projects that:

- ✓ Demonstrate a sense of community by partnering with or impacting our Merrill community.
- ✓ Enrich the educational experience, motivate and inspire students, educators and/or the community.
- ✓ Fill a specific need and are educational and fun for students.
- ✓ Are cost-effective.

Projects will be scored as follows (possible 100 points):

- ✓ Sense of Community Up to 30 points
- ✓ Creativity and Innovation Up to 30 points
- ✓ Educational Value Up to 20 points
- ✓ Project Fills a Need Up to 10 points
- ✓ Cost-Effectiveness Up to 10 points

Proposals should identify the impact the Community Foundation has on the project. Integration of curriculums is encouraged, and joint proposals from teams of teachers in one or more schools are welcome and encouraged. The participation of parents, volunteers, or other members of the community is highly encouraged. Funding is not generally awarded for items the committee feels should be provided for within the school district's budget, including core curriculum items, staff, or transportation. The committee also tends not to fund refreshments, rewards, or incentive programs. Materials and equipment associated with project funding become the property of the school.

The application deadline is October 1.
