

GREATER WAUSAU AREA ALUMNI ASSOCIATION OF FFA SCHOLARSHIP

FUND BACKSTORY . . .

The Greater Wausau Area Alumni Association of FFA Fund was established to continue the proud tradition of supporting agricultural education and leadership development among local students. Created through the dedication of FFA alumni and community members, the fund serves as a lasting investment in the future of agriculture and the young people who will lead it.

The Future Farmers of America (FFA) has long been a cornerstone of the Wausau area's educational and community life - cultivating leadership, personal growth, and career success through agricultural education. Recognizing the life-changing impact of FFA programs, local alumni came together to form the Greater Wausau Area Alumni Association, ensuring that future generations of students have access to the same opportunities that shaped their own lives.

Through this fund, the association provides financial assistance to students pursuing education or careers in agriculture, agribusiness, environmental science, and related fields. It also supports local FFA chapters by fostering leadership experiences, educational initiatives, and community involvement.

The Greater Wausau Area Alumni Association of FFA Fund celebrates a legacy of service, mentorship, and agricultural excellence - honoring the past while planting seeds for a stronger, more sustainable future.
